New Traffic Pattern and Signal on SR 542 (Dundee Road) starting Sunday, August 21

Bartow, Fla. – A new traffic signal will go live at the intersection of Overlook Drive and Dundee Road on Sunday night, August 21. Motorists will be shifted into a new traffic pattern between Executive Road East and Overlook Drive. Motorists are asked to use extra caution when traveling through the Overlook intersection.

Traffic on Dundee Road from Executive Road East to Overlook Drive will be shifted to allow motorists to travel in the outside lanes while crews work to install new traffic separators in the median. Motorists should be aware that some pre-existing median openings will be closed. Left turning traffic may have to travel past their destination to the next median opening and make a U-Turn.

This project is designed to add capacity to Dundee Road to accommodate future population growth and increased traffic volume. The project includes widening the roadway from two to four lanes, constructing an enclosed drainage system, closing the Overlook Drive merge and installing the new signal at Overlook Drive. Additional safety upgrades will include upgrading existing signal equipment, adding sidewalk, bike lanes, and street lighting,

The FDOT would like to thank the community for their support of this project and their continued patience. For more information visit the project website at www.swflroads.com/sr542-buckeyeloop-to-us27.
